The Problem With Certainty

The emotional desire for certainty often keeps us from seeing other perspectives and understanding how decisions get made.

The Balanced Scorecard—Measures that Drive Performance

ACCOUNTING MAGAZINE ARTICLE by Robert S. Kaplan and David P. Norton

What you measure is what you get. Senior executives understand that their organization's measurement system strongly affects the behavior of managers and employees. Executives also understand that traditional financial accounting measures like return-on-investment and earnings-per-share can give misleading signals for continuous improvement and innovation—activities today's competitive environment demands. The traditional financial performance measures worked well [...]
